

High Adventure Programs

McKee Adventure Program (MAP) for Scouts AND Venturers (offered the 1st- 3rd weeks)

McKee Adventure Program features experiences that takes participants all over the Red River Gorge taking part in some of the most popular programs there, along with time spent on camp. The purpose of the program is to give something to older Scouts who may find the traditional merit badge program not appealing to them anymore. Exact schedule is subject to change based on vendor availability but here is the expected schedule.

Scouts/Venturers do NOT have to attend this program the same week their troop/crew attends. They can fill out the provisional camper form and attend by themselves, with a friend, etc.
